

The Thai Foam Group is one of Thailand's most successful business groups because it constantly strives to improve its products and services for customers. In line with the pursuit of excellence, the Thai Foam Group has recently attained ISO 9001:2000 certification from TUV.

This internationally recognised management system will help to enhance performance through the continuous improvement of products and work processes. It will not only make the everyday running of the group more efficient, but should also benefit the Thai Foam Group's customers and suppliers.

ISO Certification should also enable the group to play a greater role internationally, further enhancing Thailand's reputation as a source of quality manufacturing.

Since its inception, the Thai Foam Group has grown into one of Thailand's most productive and successful business groups. Employing over 800 highly-skilled workers at six state-of-the-art factories all over the country, the group turns out a huge range of foam goods for many low volume customers. These conventional uses foam for packaging and insulation, as well as in many other products that are exported abroad or used in the domestic market. By the Thai Foam Group is not only contributing to The Thai economy, but is also helping to enhance the country's reputation internationally, as a centre for high-quality manufactured goods.

The group's products are made from several kinds of foam, including:

- * Expandable Polystyrene (EPS)
- * Expandable Polyethylene (EPE)
- * Expandable Polyurethane (EPP)
- * Expandable Polyurethane/Polyurethane Co Polymer (POCELAN)

These foams are used in a huge variety of products, such as:

A hand is holding a beer tap handle. The handle has a circular logo at the top with a red '25' and the text 'ANNIVERSARY 1973-2013'. The handle itself is silver and has a black base with a yellow label.
